

COME HERE LOOKIN' (for what it is)

1

Red-tail risin' up over the ridge
Soaring round and round
Takin' in the world from a thermal high
And he never thinks of the ground, oh no,
He never thinks of the ground.

He comes here lookin'
For what it is
Comes here lookin'
For the way that it's s'posed to be
He comes here lookin'

2

Ol' coyote lopin' down the road
And his nose is to the ground
Lookin' for the same thing the red-tail is
And he never never makes a sound, oh no,
He never makes a sound

He's just lookin'
For what it is
He's just lookin'
For the way that it's meant to be
He comes here lookin'

3

Big-eyed mule deer scramblin' up the ridge
And her ears are high and her eyes are wide
But she can't smell me 'cause I'm upwind
And besides, I'm on her side, oh yeah,
You know I'm on her side

REFRAIN

'Cause I come here lookin'
For what it is
Come here lookin'
For the way that it used to be
But I can't help seein'
What it has become now
And I can' help knowin'
What we have done here
And I'm tryin' to find a way
To set all nature free.
So I come here lookin'

4

Skinny little lizard skitters 'cross my track
And scoots up on a rock
He thinks I can't see him there
Frozen as in shock, oh no,
A-sittin' on his rock.

But he's just bein'
What it is
What the red-tail is lookin' for
And the ol' Coyote
And the big-eyed mule deer
They all come lookin'
Come here lookin'

5

Big ol' brown bear
Bumpin' through the bins
An' he ain't afraid of me
He'll eat that junk food all day long
If you leave it out for free, oh yeah
Don't leave it out for free

'Cause he's forgotten
What it is
Don't remember
The way that it's s'posed to be
He's forgotten . . .

6

Hungry little hummingbird
Hovers in the air
Then she zooms to the next bush down
Gotta keep a-sippin' and a-swoopin' all day
Or she'll tumble down to the ground, oh, no,
Don't wanna be on the ground.

She comes here lookin' (etc.)

7

Restless rattlesnake
Rustles through the leaves
Shakin' shakin' his tail like mad
You better take a big step back
Or it could be the last you had, oh no
Don' wanna make him mad

He's just lookin' (etc.)

8

Bouncy little bunny rabbit
Bustles through the brush
And his eyes are wide in fear
Every step a human takes
Is a sound he doesn't want to hear, oh no,
He doesn't want to hear.

He's just lookin' (etc.)

9

Fine [shiny] black raven flaps softly overhead
Croakin' a gentle croak
Ancient [that ol'] bird, he's seen it all
His wings have a powerful stroke, oh yeah,
He's got a powerful stroke,

He's a witness

To what it was
He remembers
The way that it used to be
'Cause he comes here lookin'

10

Tiny-eyed turkey buzzard turns in the air
Lookin' for somethin' dead
If he | spots you lyin' there on the ground
He'll peck the | eyes right out of your head, oh
yeah,

That's what I said,

He remembers

What it is
He's connected
To the way it was meant to be
He comes here lookin'

11/12/13

Well, I walk these mountains full of hope and
pain
Tryin' to find the way
To bring all the people back to the land
To see the beauty and stay

'Cause we've lost touch with the Circle of Life
And what the Earth can give
In the blessing of Forest, Sea, and Sky
And a natural way to live

We've weakened this world with our willful
ways
Poisoned the sea and air, and burnt the land
And if we can't find our way back Home
In the | end we'll all be damned, oh yeah
Then we will all be damned.

'Cause we've forgotten
What it is
We can't remember
The way it was meant to be

But I still come lookin'
Though I can't help seein'
Still I can't help hopin'
We could all be walkin'
On the path of wisdom

And I'm tryin' to find a way
And I'm tryin' to find a way
Yes I'm tryin' to find a way
To set ALL nature

Free

(so I come here lookin' . . .)
